

Subject: Re: Clarification on RFP No. UNFPA/TZA/14/006

A few questions:

- 1) ANNEX II: Terms of Reference (TOR) -> Objectives of Assignment #6 - Do we have to use technologies/platforms listed in b,c,d,e? Would open source technologies such as Python and MySQL DBMS be acceptable?
- 2) Many documents require "Signature and seal of the bidder", what form of signature and seal is acceptable in electronic submissions (PDF)?

Response:

- 1.) These are the requirements needed, can't be substituted.
- 2.) The bidders that submit their bids electronically are required to print, sign, scan and send the documents in PDF format.
